

MAGC

Your partner from seed to harvest.

Quality seed, practical agronomy, efficient irrigation and smart farm tools — one trusted partner for every stage of your vegetable season.

SEED **AGRONOMY** **IRRIGATION** **DIGITAL TOOLS**

Mulangi Agricultural Group of Companies

www.magc.co.za

Limpopo · Mpumalanga · Gauteng

Every season has risks. We help you manage them.

Rising input costs, scarce water, unpredictable weather and fertiliser guesswork eat into farm margins. MAGC brings the inputs, the expertise and the tools together, so every decision on your farm is planned, measured and profitable.

01

QUALITY SEED

Trial-proven vegetable varieties, transparent pricing and fast online ordering with automatic 5% savings on 1 ha+ orders.

02

AGRONOMY THAT DELIVERS

On-farm advice backed by photo crop checks, soil-based fertiliser programs, enterprise budgets and local weather.

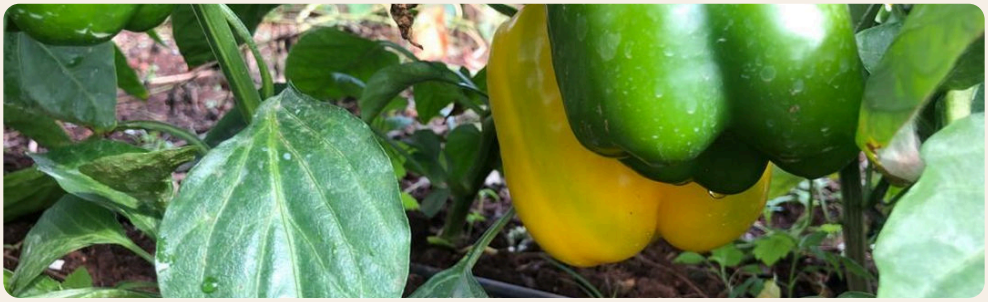

03

WATER & EQUIPMENT

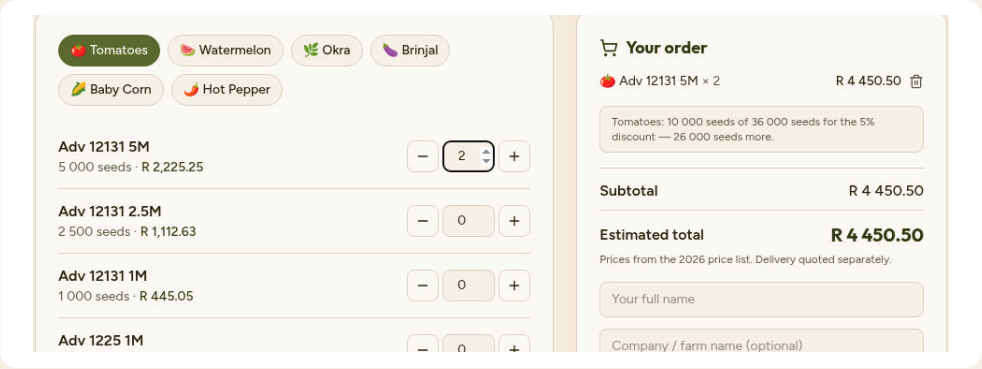

Dripline, irrigation setup support, power sprayers and machinery that put water and nutrients exactly where the crop needs them.

ONE PARTNER, THE WHOLE SEASON

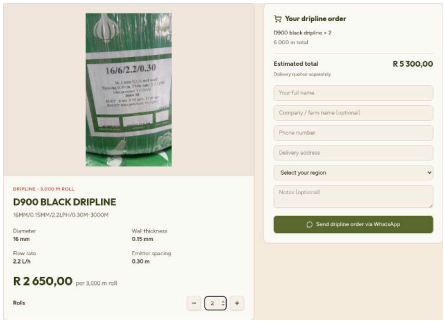

PLAN	PLANT	GROW	HARVEST
Budget, margin and weather outlook	Quality seed ordered online	Fertiliser, crop checks, drip	Yield, quality and profit

Order the right inputs. In minutes, not days.

- **Know your cost upfront.** Choose varieties, pack sizes and quantities and see your estimated total instantly — no waiting for a quote.
- **Save 5% online.** Tomato, okra, watermelon and chilli orders covering 1 ha or more qualify automatically.
- **Straight to our sales team.** Your full order, delivery details and reference arrive on WhatsApp for fast confirmation.

WATER-WISE IRRIGATION

D900 black dripline

16 mm · 0.15 mm · 2.2 L/h · 0.30 m spacing

R2,650

per 3,000 m roll · order online

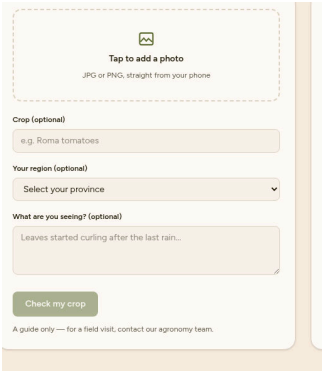

- **Set up before you plant.** We support mainline, drip, pump and fertiliser-tank setup so the crop starts on a tested system.
- **Spray and work efficiently.** Power sprayers and machinery ordered the same simple way.

Expert agronomy, right in your pocket.

Free tools on www.magc.co.za turn field data into clear, practical decisions — backed by MAGC agronomists when it matters.

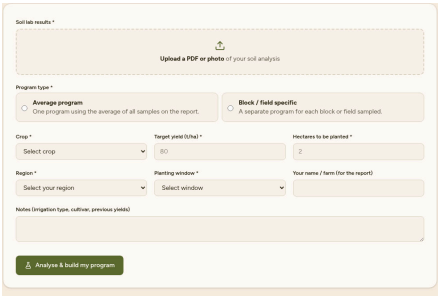

CROP CHECK

Snap a photo, get likely issues, urgency and next steps — urgent cases go straight to MAGC.

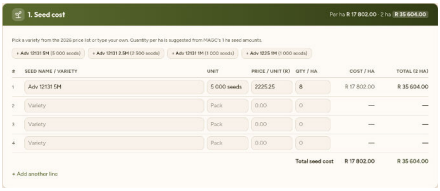

FERTILISER PROGRAM

Upload soil results; get a week-by-week plan with kg/ha, field totals, shopping list and PDF.

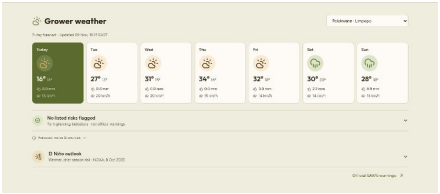

ENTERPRISE BUDGET

Cost every input, labour and overhead to see gross margin and net farm income before you plant.

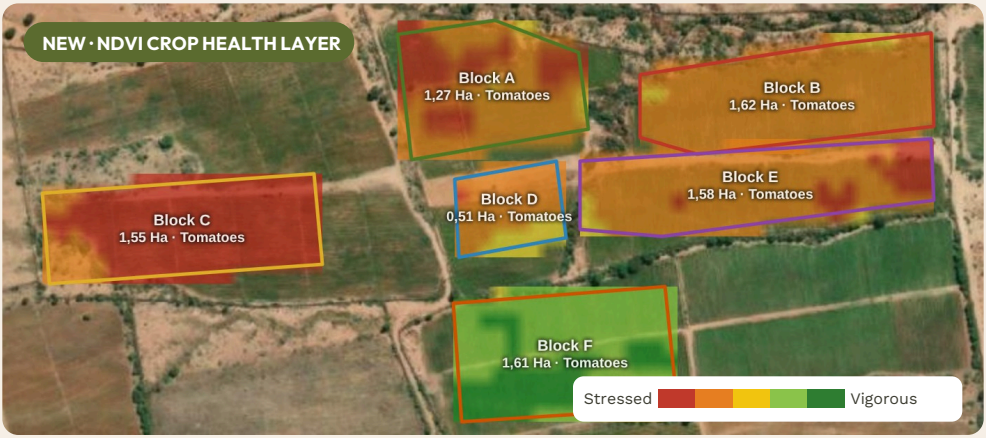

GROWER WEATHER

Seven-day local forecasts with heat, wind, rain and hail risk indicators for planning field work.

Digital guidance supports, but does not replace, confirmation by a MAGC agronomist.

See every block.
Manage every hectare.

Real fields, Nwanedi, Limpopo · 6 tomato blocks · 8.15 Ha. Imagery: Esri, Maxar · Crop health: Copernicus Sentinel-2.

Real maps of real fields. Blocks are traced on true satellite imagery and sized in Ha, m² or km² — each block shows its own hectares and crop planted.

NDVI crop health, about every 5 days. Free European Space Agency Sentinel-2 passes refresh the colour layer roughly every 5 days, using the latest cloud-free image at 10 m detail.

Spot problems before they spread. Red to green shows which blocks are stressed or vigorous, so scouting, fertiliser and irrigation go where they pay back.

Farm records that travel. Farm name, crops, GPS markers and blocks export to a branded, time-stamped PDF for orders, budgets and lenders.

Growing with purpose

SUSTAINABLE DEVELOPMENT GOALS

Zero Hunger
Seed and agronomy that lift local food supply.

Clean Water
Drip delivers water at crop level.

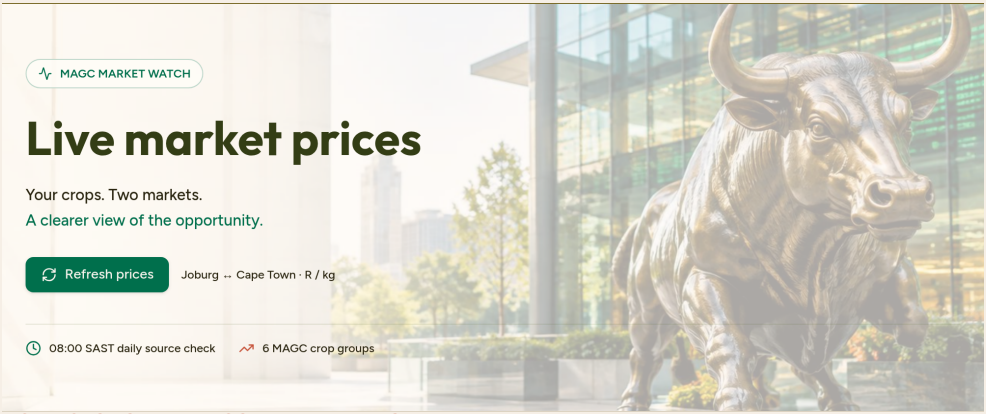

Decent Work
Viable farms and local jobs.

Responsible Production
Precise input use, less waste.

SDG icons are a United Nations initiative. MAGC is independent and not endorsed by the UN.

Know the market. Plan for stronger returns.

Compare Joburg Market and Cape Town Market for the crops you grow — with average wholesale prices shown in rand per kg.

A SNAPSHOT OF THE MAGC LIVE MARKET BOARD

Crop	Joburg Average / kg	Cape Town Average / kg
Tomatoes	**R 7.95** / kg	**R 11.95** / kg R8.33–R16.67
Watermelon	**R 3.17** / kg	Not available
Okra	**R 19.16** / kg	Not available
Brinjal	**R 15.04** / kg	**R 15.17** / kg R8.00–R30.00
Baby Corn	**R 86.63** / kg	Not available
Hot Pepper / Chillies	**R 23.48** / kg	**R 24.47** / kg R3.33–R50.00

Report dates: Joburg 13 Nov 2026 · Cape Town 17 Nov 2026.
Captured 18 Nov 2026. This printed snapshot does not update.

Selected pack prices are shown per kg. Missing prices are not estimated. Compare matching dates; quality, grade, commissions and transport affect returns. Market indicators are not guaranteed selling prices.
